HealthTech Mobile App

By Vivek Chopade

Agenda

1. **Executive Summary**
2. **Challenges, Risks & Remediation**

HealthTech Mobile App – A Trendsetter in Digital Health

Executive Summary

Vision

- To enable a seamless and scalable healthcare platform that delivers accessible, affordable and high-quality care

Core Platform Capabilities

- Virtual Consultations (Video & Chat)
- Wearable device integration
- AI features like pharmacy services, refill reminders, personalized health insights
- Lifestyle Coaching

Key Target Objectives – Patients & Hospitals

- Improve medical adherence rates to 69%
- Handle 5,00,000 consultations annually
- Annually save 2 million hours & $2 million
- Annually reduce OPD and ER visits by 20 % and 10%
- Annually save $8 million

Current Status

90% Complete

Core features implemented & User Interface is finalized

Beta Testing

Across 5000 users, 87% satisfaction rate with 13% reported issues such as app crash, slow loading and data sync errors

Regulatory approval

City health authority approval pending, currently legal review ongoing

Hospital Integration Challenges

Compatibility challenges in **2** hospitals due to legacy systems. Remaining **3** hospitals have been connected

Security Audit

4 high priority data privacy vulnerabilities identified. Remediation efforts have commenced

HealthTech Mobile App – A Trendsetter in Digital Health

Challenges, Key Risk, Remediation & Future

2026 | **2027**

August | **September** | **October** | **November** | **2027 Onwards**

Challenges

Integration Testing

Security Audit

Go Live date

- Integration testing

- Additional Beta testing
- Technical fixes

- Security Audit completion

- Go Live

Key Risks

Timeline

Impact

Resolution by **Oct` 26**

- Data Privacy & Compliance Issues could lead to reputational and regulatory risks
- Project Team operating at 110%, may lead to delivery slippage
- Technical stability issues may lead lower user trust and adoption
- Delay in Hospital IT integration may limit coverage to 60%
- Adoption in underserved community is below 25%

Remediation & Future

Tech Task Force

Outreach

Expansion (`27)

Resolution by **Aug `26**

- Tech Task force for app issues & hospital integration
- Community outreach & Education campaigns in underserved areas

- External Security Audit

- Expansion to suburban and rural markets
- National Pharmacy chains partnership
- AI Analytics module for population health insights in Q2`2027
